

Treasurer's Report

This has been an unusually hot and humid summer for all of our Summer Survivors! The best thing about my commitment to setting up a new accounting program was that it meant spending a lot of time indoors—in the air conditioning!

Frankly, the process was much more time-consuming than I had anticipated. Taking the “learn as I go” approach certainly had its drawbacks, especially when I decided to include the bar inventory in the new program.

I want to offer my heartfelt gratitude to **Joan Fairweather** for continuing with the old bookkeeping system and producing our financial reports since I took over as Treasurer in February. After more than twelve years as Treasurer, Joan has also been a tremendous source of knowledge, guidance, and support throughout this transition.

As I write this, the next step will be training our Club Manager on the new accounting program, which will require a considerable amount of time from both of us during September.

Members will notice some changes as we work toward presenting the Club's financial information in a format more appropriate for a not-for-profit organization. We look forward to continued growth and improvement in our financial reporting and appreciate the understanding and support of our members as we make this transition.

Exchange Rate Change

Effective October 1, 2026, the Club exchange rate will change to 16 pesos to \$1.00 USD.

Please join us for another fun—and fruitful—season as we continue our efforts to support those in need within our community.

Carolyn Deese, Treasurer
Club Deportivo, Bahía de Kino
